protecting their projects!

ABOUT US

Siteguard is an Australian-owned and operated company manufacturing and supplying advanced solar-powered cameras. Our products are the 1st choice for builders and property owners. We take the stress out of site surveillance, giving your clients peace of mind and maximum 24/7 protection. Utilising advanced engineering, AI technology and over 10 years of security experience, the Siteguard name has become synonymous with fair dinkum site surveillance, offering superior protection and additional custom capabilities to suit each project.

MARKET OPPORTUNITY

- Theft on building sites is on the rise (increase of 10% on last year)

TESTIMONIALS

"I want to thank Siteguard for supplying 1 x SG1 and 1 x SGVF for my property. My neighbours were getting robbed big time, but I have had no issues since installing your system."

Rachel - farmer Dubbo

"I purchased an SGVF Series 1 Full Tower with the Large Protector Base. Siteguard makes a great product. It is genuine Australian-made quality. No cheap gimmicks!"

Peter - farmer Dorriggo area

"The Number Plate systems from Siteguard are pro-level. For when you want to get maximum prosecution evidence. The only proper number plate recognition system in my opinion"

Dave - farmer Queanbeyan

"The Siteguard SGV is awesome. I use it every day to scan my paddocks, my livestock and my trough water levels. Easy to use and always reliable when you need to check something!"

Jim - farmer Tamworth
