

WORKSITE RANGE – CONSTRUCTION

IDEAL SOLUTION FOR BUILDING SITE REQUIREMENTS SITE OFFICE, LUNCH ROOM, CHANGE ROOM, FIRST AID ROOM, ABLUTIONS

As Australasia's largest provider of shipping containers, Royal Wolf provides a range of effective, rapidly installed portable building solutions.

All are built from heavy gauge steel and carry a 10kPa rating, making them ideal for construction sites with limited space as they stack easily and safely to double, triple or quadruple height. The units twist lock neatly onto the top of Royal Wolf's container hoardings and gantries. The worksite range is available with flexible rental options and each building type is modified to suit specific end use, with features such as power, water, secure locking and appropriate fitout. For rapid installation and full adaptability to any site, Royal Wolf can assist with all your project requirements.
