

Husqvarna K 3000 Wet

Wet and dry cutting in one machine! Electric all-round wet cutter that minimises the amount of water and slurry. With the optional Vac unit you can easily transform it into a dry cutter that generates minimal dust. Unlike other electric cutters, the blade rotates forward, cutting into the material efficiently with minimum effort on the user.

CONSTANT-FLOW WATER VALVE

The integrated regulator controls the water volume, ensuring a constant flow to the blade. It also ensures the amount of water is sufficient to bind the dust without creating an excess of water.

ERGONOMICALLY DESIGNED REAR HANDLE

The convenient design of the rear handle makes operation easier.

HIGH DURABILITY AND LOW NOISE LEVELS

Generously dimensioned mitre gear provides high durability, minimal power loss and low noise levels.

OVERLOAD PROTECTION

Our Elgard™ system protects against overload by varying the rotation speed.

Features Husqvarna K 3000 Wet

- Quick acting locks for the spindle and a large outlet in the blade guard simplifies blade replacement.
- The blade on all our electric cutters rotates forward, cutting into the material efficiently, minimising the risk of sticking and kickbacks.
- A powerful electric cutter for both indoor and outdoor use.
- The advanced electronic overload protection varies the rotation speed to warn of approaching overload.
- Provides starting with normal, slow acting fuses.

TECHNICAL DATA	
Voltage	230 / 120 / 110 V
Rated current, A	12 / 15 / 20 A
Rated input	2700 / 1800 / 2200 W
Blade diameter	350 mm
Max cutting depth	125 mm
Weight (excl. cutting equipment)	8,5 kg
Vibrations front handle	3,5 m/s ²
Vibrations rear handle	3,5 m/s ²
Sound power level, guaranteed (LWA)	105 dB(A)
Sound pressure level at operators ear	95 dB(A)
