

AS170 Complete Set

ALL.FG.170240

1x AS170 Brick and Mortar Saw
1x Heavy Duty Tool Bag
1x General Purpose Blades
1x Plunge Blades

1x Spare Belt
1x Dust Boot and Vacuum Adaptor
1x Set of spare screws
1x Ian Key

General Purpose Blades

BLA.FG.1110

Used for general cutting of bricks, and mortar or general masonry cutting. Also used for cutting tree roots or wood through dirt and sand.

Depth: 115mm (4 1/2")
Width: 7.2mm (9/32")

XL General Purpose Blades

BLA.FG.1200

Cut up to 170mm deep.

Depth: 170 mm (6 3/4")
Width: 7.2 mm (9/32")

Plunge Blades

BLA.FG.4110

Used for general cutting of bricks and mortar. Ideal for single brick removal and tothing of brickwork.

Depth: 120mm (4 3/4")
Width: 7.2mm (9/32")

Switchbox Blades

BLA.FG.2110

Ideally suited to cut small square holes for electrical switches.

Depth: 120mm (4 3/4")
Width: 7.2mm (9/32")

Headjoint Blades

BLA.FG.7000

Ideal for tuckpointing and mortar removal on vertical joints.

Depth: 75mm (3")
Width: 7.2mm (9/32")

Heritage Blades

BLA.FG.8000

Ideal for mortar removal on thin joints and heritage restoration.

Depth: 35mm (1 3/8")
Width: 3mm (1/8")

CUSTOMERS TESTIMONIALS

Michael Finn - Finn & Son Tuckpointing - AUSTRALIA

Saint Marys Cathedral Restoration Project

"The Arbortech AllSaw **saves us 4-5 hours labour a day**. Its ability to cut deep, cut square and safely into mortar with low dust made it the perfect tool for this job."

Tom Inglesby - AUSTRALIA

Masonry Magazine

"The maker claims - and their demo backed them up - that a time-consuming, dusty and inaccurate job can now be transformed into an **easy, fast, accurate, safe and virtually dust-free job**."

Allsaw Technology

Cut square, cut deep and cut with precision.

Engineered to significantly improve safety and efficiency when cutting bricks walls, mortar and more. Ideal for Trade Professionals and DIY Enthusiasts, there is a number of specialised blade options for specialised trade applications.

CUT SQUARE

The AS170 cuts square openings with no over cutting. Surrounding brickwork can remain untouched, no bolsting or stitch drilling is required and job completion times can be reduced.

CUT DEEP

The AS170 is the only small handheld saw able to cut to a depth of 170mm.

CUT SAFE

The AS170 provides superior operator safety. The inherently safe cutting action prevents kickback and is easy to control.

PLUNGE CUT

Use the AS170 to cut directly into flush walls without stitch drilling.

CUT DRY / LOW DUST:

This unique cutting technology creates very little fly dust protecting the operator and creating a cleaner work environment.

HIGH VISIBILITY AND PRECISION CUTTING:

The forward facing blades allow clear visibility when cutting making the AS170 the ideal tool whenever accuracy and precision is required.

VIBRATION REDUCING HANDLE

Significant vibration reduction to increase user comfort.

DUST BOOT WITH VACUUM ATTACHMENT

Efficient dust control for jobs in sensitive environments.

POWERFUL HEAVY DUTY MOTOR

Dust resistant heavy duty design ensures long motor life even in the toughest working environments.

AUTO CUT OFF BRUSHES

Prevents motor damage.

RESHARPENABLE TUNGSTEN CARBIDE TEETH

Long lasting, designed specifically for cutting bricks and mortar.
