

EZ17e

Tracked Zero Tail Excavator

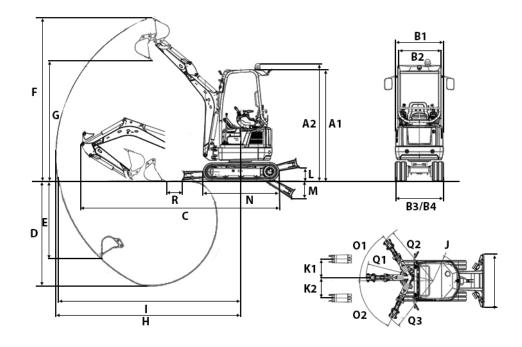

Fully electric and full performance

The EZ17e is the first fully electric Zero Tail mini-excavator without rear projection. Due to its zero emissions, it is ideal for indoor applications, as well as in areas where exhaust emissions and noise are restricted. Thanks to the powerful lithium ion battery, it can be used for a typical workday and, if necessary, continue to be used in stationary operation connected to a power source. Due to its patented battery technology with integrated battery heating, the unit can be charged at any power source (100 to 415 volts). This can be done without additional extra work being required and independently of the ambient temperature.

Highlights

- Patented battery technology
- Reduced maintenance and service costs
- Keine Abgase, deutlich weniger Lärm
- Intuitive operating concept
- 100% zero tail

Dimensions

Height of dozer blade	A1	Height of canopy	2,365 mm
